

## **EAAA Alternatives Wins ‘Best Infrastructure Fund – Overall Performance 2026’ Award at IVCA Alternate Capital Excellence Awards 2026**

*Mumbai, March 16, 2026*

EAAA India Alternatives Limited was awarded the ‘Best Infrastructure Fund – Overall Performance 2026’ for its Infrastructure Yield Strategy at the IVCA Alternate Capital Excellence Awards 2026.

EAAA India Alternatives Limited (formerly known as Edelweiss Alternative Asset Advisors Limited) is one of the leading, multi-strategy alternatives asset management platforms in India, in terms of assets under management (Source: CARE Report). With more than 15 years of experience of managing both institutional and private patient capital, EAAA Alternatives focuses on providing income and yield solutions to a diverse base of global and domestic clients.

The IVCA Alternate Capital Excellence Awards 2026 were presented at the 15th edition of the IVCA Conclave, organised by India's apex body for the alternate capital sector, the Indian Venture and Alternate Capital Association (IVCA). The awards recognise firms that have demonstrated exceptional results in performance, fundraising, exits, impact investing, and sector-specific strategies across the alternative capital ecosystem.

EAAA Alternatives first launched its Infrastructure Yield Strategy in 2018 while the second series of Infrastructure Yield raised more than INR 8000 crore in 2024.

Infrastructure Yield strategy focuses on investing in quality operating infrastructure assets with strong counterparties, long residual life, and high EBITDA margins, with the ability to generate stable, predictable yields alongside potential for long-term capital appreciation for investors. The sub-vertical involves the aggregation of assets, improving their performance, and exiting the portfolio to achieve higher valuations through InvITs or sale to strategic investors.

With a consistent track record and institutional depth, EAAA’s fee-paying AUM of INR41,920 crore is distributed between Real Assets (52%) and Private Credit (46%).
